

108 copenhagen

Architect: Space Copenhagen

Year: 2016

Location: Copenhagen, Denmark

Bomma's iconic Tim pendants are a highlight of chef René Redzepi's new restaurant interior. After Noma Restaurant was ranked seven times as the Best Restaurant in the World, René decided to move forward by launching a new concept. For the renovation of the former industrial warehouse, Space Copenhagen chose various materials including an exceedingly clear crystal. Its prevailing Scandinavian aesthetic is then brightened up by Bomma's gigantic mouth-blown crystal fixtures.
