Martin's Brugges Hotel, Belgium

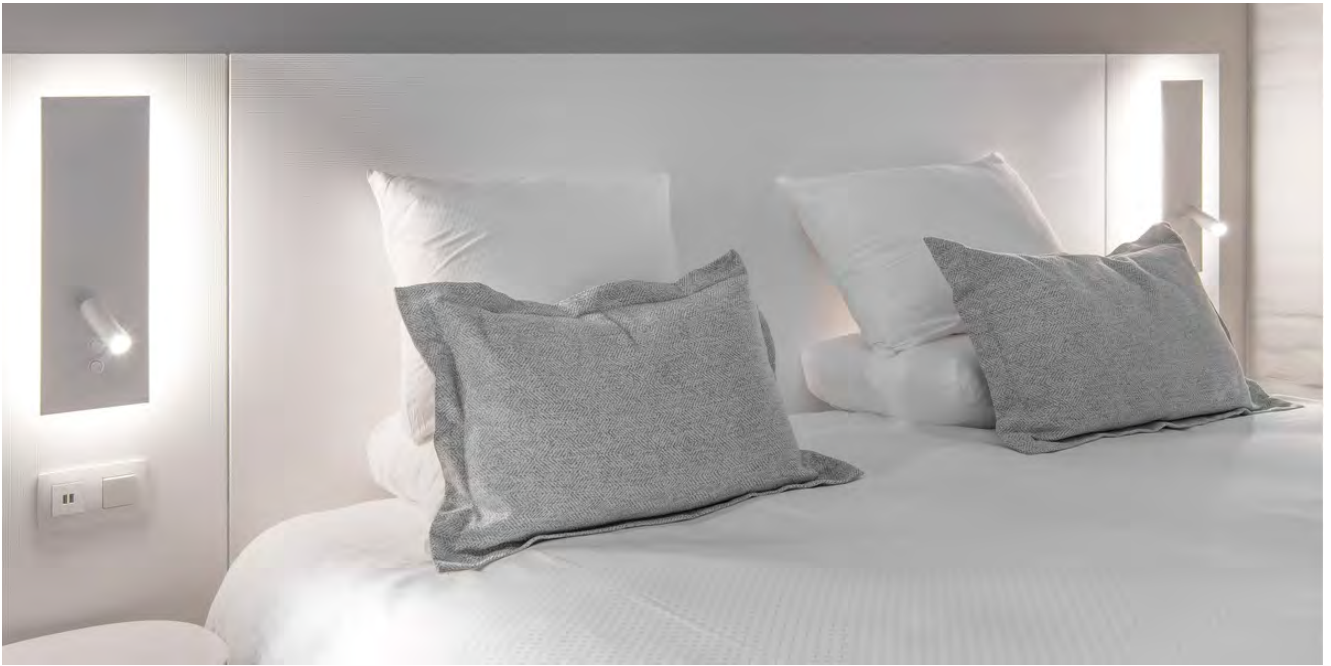

Situated in the historic city centre of Bruges, the Martin's Brugge Hotel now offers guests newly renovated bedroom suites to stay in which have been supplied with some of Astro's best-selling lighting designs. Placed either side of the bed,

award-winning Edge Reader wall lights combine ambient

lighting with the directional functionality of an LED reading light, while Astro's Atelier and Messina wall lights add a touch of traditional style to subtly contrast against the overall contemporary design scheme of the bedroom. Design: Champels Creative Hospitality Credits: Martin's Hotel
