

## residence in mykonos

Architect: Block722 Architects

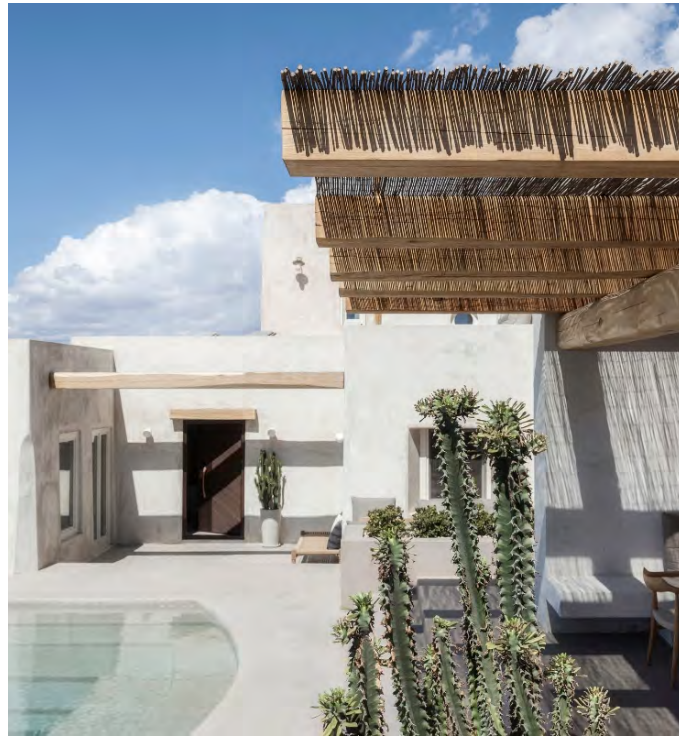

Year: 2018

Location: Mykonos Island, Greece

In contrast to the vigorous environment of Mykonos Island, the new residential project by Block722 Architects is an oasis of calm. Follow the character of the island's omnipresent nature, the architects made very careful choices regarding the exterior as well as the interior the residences. Matched with mostly custom-designed earth toned furniture, Tim pendants are the last piece of the puzzle in this captivating interior.
